THANK YOU FOR HOSTING!

The first issue of Compass, our Campaign newsletter, is in full swing. The goal: $6.5 million in support of the Hospital’s new Community Cancer Center.

Based on the first floor of the Read Wing, the Center will echo the interdisciplinary care model used in leading cancer centers nationwide. Patient navigators, physicians, behavioral health specialists, nutritionists, and other care team members will be located just steps away from a fully redesigned chemotherapy infusion center. The Campaign also supports the purchase of new mammography equipment and technology and facility upgrades to enhance the comfort of patients undergoing cancer treatment.

“We provide excellent cancer care, close to home – sparing our patients the stress, financial strain, and life disruptions that come with commuting for treatment,” says medical oncologist James L. Smythe, MD, whose office will move from its current location off-campus to the Community Cancer Center. “We are incredibly grateful to everyone who is helping us create an even better care experience by supporting the Campaign.”

To learn more about the Campaign, please contact Donna Neville, Vice President of Development, at (401) 708-1600 or at dneville@schospital.com.

South County Hospital’s partnership with 21st Century Oncology is an excellent example of the type of collaboration that drives the excellence of our cancer care.

21st Century Oncology’s national network provides research and protocol updates, technological advancements, and other resources, enabling us to offer a full range of leading-edge treatments and technologies on our South County campus – including intensity-modulated radiation therapy (IMRT) onboarding and prototyping, all of which deliver effective treatment with the utmost precision. When a patient needs a technology not available in our campus, our network provides it, for instance. We treat patients as cancer patients at our Providence affiliates, using a specialized and refined approach to treatment.

The Community Cancer Center at South County Hospital continues in that tradition of innovative collaboration – promoting a robust, interdisciplinary approach to cancer care. I am honored to be part of a forward-thinking hospital that is so deeply committed to quality – and grateful to support a community that supports high-quality care through philanthropy.

Thank you.

Darlene Gabeau, MD, PhD, a radiation oncologist at 21st Century Oncology, and Medical Director for Cancer Services at South County Hospital.
A Message from Lou Giancola

Lou Giancola is President and Chief Executive Officer of South County Hospital.

A Message from Leoneto

**CAMPAIGN NEWS**

The following text is a general overview of the Campaign for Cancer Care at South County Hospital, led by Campaign chairs Ellie Ferguson and Rob Panoff, and is in full swing. The goal: $6.5 million in support of the Hospital’s new Community Cancer Center.

**CAMPAIGN AT A GLANCE**

- Community Cancer Center (CCC) supporting patient-centered, interdisciplinary care
- Fully redesigned infusion therapy center for chemotherapy and other treatments
- Physicians’ office, patient navigators, behavioral health, nutrition counseling, financial services, and other services under one roof, adjacent to infusion center
- Private space for patient and family education and discussion with caregivers, as well as in-patient and other complementary therapies
- State-of-the-art mammography
- HFAC improvements serving both CCC and Women’s & Newborn Care Unit

**Friends of South County Hospital**

Join us as we gather to make our Community Cancer Center a reality. See more inside!
A Message from Matt Callaghan

“...designed to reflect what’s really important to patients. Offering everything patients need through treatment and survivorship, and also develop a baseline physiological awareness through treatment and survivorship,...”

A Message from Lou Giancola

“We are creating our Community Cancer Center, for which the Rhode Island Department of Health has issued the letter of intent. It is the right thing to do — for our patients, for our community, and for our Hospital.”

A Message from Darlene Gabeau, MD, PhD

“It all comes down to this, says Dr. Gabeau, a member of the South County Hospital Board of Trustees. “Community providers provide about 85% of all cancer care delivered in the United States. Our Community Cancer Center is central to our hospital’s role as a driver of health care in southern Rhode Island.”

A Message from Richoland

“...we will be working with Dr. Tom Keenan and Dr. Vincent J. Miletta. We will have new state-of-the-art technology to sequentially evaluate the patient’s response to therapy, so that we can be as effective and efficient as possible.”

A Message from Dr. William Thorton and Trish Sabrina

“...we will be providing state-of-the-art technology for evaluating the patient’s response to therapy, so that we can be as effective and efficient as possible.”

Community Genorosity

THANK YOU FOR INVESTING IN CANCER CARE FOR SOUTH COUNTY
